

SPEED™ ON JUMP
Looping roadway of jeopardy-winner is decided by a leap to the finish!

POWER LOOPS
One wind and the Darda car zooms through two complete circuits for twice the excitement!

ULTRA SPEED™ CHAMPIONSHIP CHALLENGE
Racers explode out of starting gate. Checkered flag automatically signals the winner of this ultimate contest!

ULTRA SPEED™ DELUXE AWESOME TOWER
Speedsters battle impossible inclines and daring descents on this skyscraping tower of thrills! Features a Stop & Go car. Winner of 1986 Parents' Choice Gold Award.

TURBO SHIFTER™ HIGHWAY HAULER
Truck changes gears to power up bridges and accelerate around jack-knife curves!

ULTRA SPEED™ CYCLONE TOWERS
Two sleek race cars test their skills on savage spirals and dizzying climbs up 3-foot tall twin towers. The ultimate challenge!

TOWER
A frenzied maze of as the sky!

Darda

CARS, SETS & ACCESSORIES

The world's fastest cars have power to spare! Make your Darda racing set even more challenging and more fun with multi-piece additions that create these complete, ready-made extensions.

COMPETITION RACEWAY

SET EXPANSION KIT
Containing over 5 feet of track, large and small besepieces, loops, start box, curves and crosstrack.

LOOP TOWER

STOP & GO STATION

MID-AIR LEAP

FLUXI-TRACK TOWER

TRACK SETS

The best way to test the limits of our remarkable cars! Each set features instructions for alternate layouts, too - but kids can invent dozens of their own track designs from just one Darda set!

STUNT RACE SET
The world's fastest cars compete against each other and gravity on dual loops and straightaways! Winner of 1988 Canadian Toy Council "Awesome" Award.

ULTRA SPEED™ CANYON JUMP
A giant, looping roadway of jeopardy - and the winner is decided by a perilous leap to the finish!

POWER LOOPS
One wind and the Darda car zooms through two complete circuits for twice the excitement!

BUMP 'N GO SPEEDWAY
Police car waits until first racer completes the looping course, then bursts into action when hit from behind.

ULTRA SPEED™ DELUXE AWESOME TOWER
Speedsters battle impossible inclines and daring descents on this skyscraping tower of thrills!

DELUXE TREACHEROUS TOWER
Banked hairpin curve sends car into a frenzied maze of multiple loops stacked as high as the sky!

WORLD'S FASTEST CARS

The Mega-Motor™ is the power behind every Darda car's amazing performance. No batteries, no electricity, no overwinding. And, they work on or off Darda's colorful track!

ULTRA SPEED™
So light, they seem to fly up even the tallest towers.

STANDARD
Clocked at 500+ scale miles per hour! Can travel 75 feet on one wind!

TURBO SHIFTER™
Three different gears - and you can change them for tough climbs or pure speed!

STOP & GO
Wind them and they wait, but a bump from the rear sends them peeling into action!

ULTRA SPEED STOP & GO
A tap on the back bumper propels them from 0 to 600 scale miles per hour in split seconds!

11817, 11824, 11825, 11826, 11827, 11828, 11829, 11830, 11831, 11832, 11833, 11834, 11835, 11836, 11838, 11837, 11855, 11862, 11863, 11864, 11866, 11871, 11872

THE ORIGINS OF Darda

Helmut Darda, inventor of the Mega-Motor™

The same precision engineering that produces the world's most accurate wristwatches is the genius behind every Darda™ car. Helmut Darda used this expert German engineering to invent a motor that enabled his miniature cars to reach amazing speeds. And although we've added many different models to our line, the Mega-Motor™ continues to provide the power for every Darda car.

Darda toys deliver fun and excitement on many levels. Children are awed by the incredible capabilities of the cars, and inspired by the challenges they can create themselves with Darda's brightly-colored, flexible track. Our Sets, Accessory Sets and Set Expansion Accessories combine to create limitless possibilities for layout extension.

Outstanding play value... no wonder Darda's award-winning line is the number one toy in its category throughout Europe, Canada and the United States!
